THE MIRACLELITE BUILDING RANGE

Our MiracleLite range of light weight portal frame buildings offer a real alternative to other cold rolled steel buildings on the market today. Suitable for industrial, commercial or agricultural uses – MiracleLite buildings are the ideal solution!

Quality buildings designed & made in the UK

We've used our extensive experience in the steel building industry to source a UK manufacturer who shares our values and aims: to provide a steel building of outstanding quality and a first class service.

Innovative engineering – superior strength frames

Made from cold rolled high tensile steel, MiracleLite steel buildings incorporate specially designed "M" frames, delivering a higher strength to weight ratio than other cold rolled steel buildings. As well as offering a building of superior strength, the unique design also saves on foundation, transport and handling costs.

Available in a variety of finishes

MiracleLite buildings can be designed using single skin or composite wall and roof panels to suit your needs. Plastisol coated sheets are available in a variety of colours to reflect brand image or harmonise with existing structures.

Energy efficient & fire resistant steel buildings

Designed to Eurocode EN1993-1-3:2006 (EC3), MiracleLite buildings deliver energy efficient solutions to achieve compliance with the latest UK Building Regulations.

Designed with you to suit your needs

Supplied as complete buildings, open bay structures or mono-pitch, MiracleLite buildings are available in widths from 3m to 24m with varying heights and unlimited lengths. Whichever option you require, our expert consultants will help you design your building and provide you with a 3-D sketch so you can see just how the design will look.

Designed to suit your site

Each MiracleLite building is specifically designed to suit the climatic conditions of your site. With over 30 years' experience in the supply of steel buildings you can be sure of getting expert advice and a professional service.

A choice of accessories

A choice of roller shutter doors, louvres and personnel doors are available for your building, along with internal partition walls and mezzanine floor framework.

Planning applications

Drawings for your planning application can be provided and full calculations supplied if required. In addition, our partner architects are on hand to handle your planning application or work on multi-build projects.

OUR ASSEMBLY TEAM

Choose Miracle Span's assembly service to ensure your steel building is completed quickly, safely and competently.

Miracle Span takes health & safety seriously. That's why we're one of the few steel building contractors in the UK to have achieved the highly regarded CHAS and SAFEcontractor accreditations.

We are also registered with Constructionline and members of the Steel Construction Institute.

Under the management of our NEBOSH qualified Contracts Manager, all members of our assembly teams are highly trained and skilled employees of this Company who receive regular health & safety training. All team members hold CSCS cards and CCNSG safety passports, as well as numerous up-to-date qualifications, including IPAF and PASMA licences.

Our advice is don't take a chance using unqualified labour as company directors can face severe penalties if things go seriously wrong.

OUR SERVICE

Our aim is to make it easy for you to do business with us and make sure you choose to do so again and again.

With over 30 years' experience in the supply of steel buildings from the Shetlands to Antarctica, you can be sure of getting expert advice and a professional service. Our experts will help you make an informed choice of the best building to suit your needs and work with you to design your building to your specification. We can handle your planning application; prepare your foundation and our professional assembly team can erect your building quickly and safely.

What's more, we'll make sure all our documentation is clear, so you know just what to expect from us, and we're always here to help even when your building project is completed.

Satisfied building owners are our **best testimonial**
and our aim is to make **every customer** just that!

THE STEEL BUILDING PROFESSIONALS

The overall quality and finish of the building is superb. The attention to detail is to be applauded. Your workmen were here on time every day, regardless of the weather and worked non-stop. They were meticulous, very efficient and a happy bunch of men. We cannot praise the work or the men enough. We would highly recommend your Company to anyone without hesitation.”

Atlas Business Park Limited

A great job. All the lads were extremely hardworking and efficient. We're very pleased with the barn.”

Gristwood & Toms

From quote to commencement on site nothing was a issue and all concerned were most helpful. The team from Miracle Span that erected the new treatment house were efficient and professional, The building was up and ready for the placement of tanks within 5 days of Miracle Span's commencement on site”

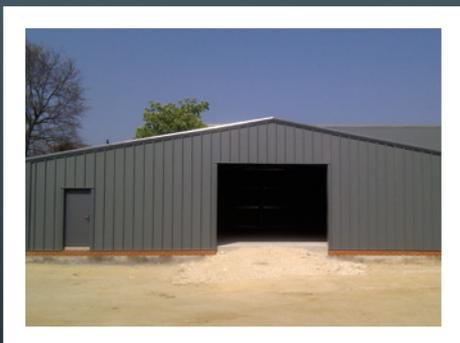

Pipefix Limited

We would like to take this opportunity to compliment Miracle Span on their professional approach in carrying out work. The health and safety standard of your operatives on site was second to none, and their manner was very helpful and courteous.”
